SKILLS

React, RTK, JavaScript, Ruby on Rails, HTML, CSS, Material UI, Active Record, Git/Github, SQL and PostgreSQL,

PROJECTS

PRONTO MEAL

Share your own quick meal creations that turn out to be delicious

- Used Session based authorization to store encrypted user information.
- Constructed a React Front end and a Back end with Rails as a JSON API.
- Designed Front end views utilizing vanilla CSS.
- Used Cloudinary as an API to store user's pictures.

ARTE LUZ

Get inspired by art and share your own

- Collaboration with a cohort partner helped this project come to life.
- Users can look at other peoples' art and their own, similar to Instagram.
- Languages used: JavaScript, Ruby on Rails as an API and custom CSS.
